

„ cTRANS, the cloud trucking software, helps you to manage your intermodal company efficiently. “

Smart Logistics Software

Optimized for container transport planning and order processing.

Thanks to graphic preparation and a simple user interface, you always have an overview of your orders, daily truck planning, master data, capacities and invoices. With catkin, your clients, customers and employees are connected to your company in real time. cTRANS integrates your mobile staff into your processes and improves the efficiency of your forwarding company.

Drive ahead – with cTRANS!

The catkin GmbH

We have been developing and implementing customized communication solutions in the B2B sector since 2013. With our catkin communication portal we mainly support industrial and transport companies. With the help of our modern software technologies, our customers especially design their logistics, but also other business areas, in a transparent and secure way.
